

31.002

or may become eligible to receive a benefit from a pension plan which covers employees of such employer or members of such organization who have satisfied the plan's participation requirements, or whose beneficiaries are receiving or may be eligible to receive any such benefit. A participant whose employment status with the employer has not been terminated is an active participant of the employer's pension plan.

Profit center means (except for subparts 31.3 and 31.6) the smallest organizationally independent segment of a company charged by management with profit and loss responsibilities.

Projected benefit cost method means either—

(1) Any of the several actuarial cost methods that distribute the estimated total cost of all of the employees' prospective benefits over a period of years, usually their working careers; or

(2) A modification of the accrued benefit cost method that considers projected compensation levels.

Proposal means any offer or other submission used as a basis for pricing a contract, contract modification, or termination settlement or for securing payments thereunder.

Qualified pension plan means a pension plan comprising a definite written program communicated to and for the exclusive benefit of employees that meets the criteria deemed essential by the Internal Revenue Service as set forth in the Internal Revenue Code for preferential tax treatment regarding contributions, investments, and distributions. Any other plan is a non-qualified pension plan.

Self-insurance charge means a cost which represents the projected average loss under a self-insurance plan.

Service life means the period of usefulness of a tangible capital asset (or group of assets) to its current owner. The period may be expressed in units of time or output. The estimated service life of a tangible capital asset (or group of assets) is a current forecast of its service life and is the period over which depreciation cost is to be assigned.

Spread-gain actuarial cost method means any of the several projected benefit actuarial cost methods under which actuarial gains and losses are in-

48 CFR Ch. 1 (10-1-03 Edition)

cluded as part of the current and future normal costs of the pension plan.

Standard cost means any cost computed with the use of preestablished measures.

Tangible capital asset means an asset that has physical substance, more than minimal value, and is expected to be held by an enterprise for continued use or possession beyond the current accounting period for the services it yields.

Termination of employment gain or loss means an actuarial gain or loss resulting from the difference between the assumed and actual rates at which pension plan participants separate from employment for reasons other than retirement, disability, or death.

Variance means the difference between a preestablished measure and an actual measure.

Weighted average cost means an inventory costing method under which an average unit cost is computed periodically by dividing the sum of the cost of beginning inventory plus the cost of acquisitions by the total number of units included in these two categories.
